STOCKING UPDATE AS OF 10/16/2026:

It's October and the fishing conditions are prime, which means trout and salmon stocking season is in full swing!!! Hatchery trucks are rolling across the state Monday-Friday and this fall, the Fisheries Division plans to stock over 60,000 trout (more than half are >12") and 2,000+ Atlantic salmon across 38 lakes/ponds and 37 river/stream sections. Species include Brook, Brown, Rainbow, and Tiger trout. Fall is a fantastic time to get outdoors and track down trout and salmon. So, dust off the gear, patch the waders, fuel up the boat, and get ready for the action.

"The Daily Cast" – Another big week of trout stocking planned. Now is a great time to grab your gear and enjoy some fall fishing. We have once again tagged the salmon to track their movement (tags are yellow this year) and are asking anglers to report their catches to DEEP Fisheries. Reporting options include email matthew.devine@ct.gov; call 860-424-4001; submit online at https://arcg.is/1PSK5b0. Good luck and thank you in advance for your efforts and participation!

The following is a list of waters planned to be stocked by the Fisheries Division during fall 2026. Dates will be added daily to the "Stocked" column in the table below as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Please get out and enjoy. Anglers should also check out our **Interactive Stocking map** for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run, and this list is subject to change. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: **TMA = Trout Management Area; TML = Trout Management Lake; TTA = Trophy Trout Area; Trout Park; WTMA = Wild Trout Management Area; CFW = Community Fishing Waters**
