STOCKING UPDATE AS OF 11/04/2026:

November is here and the fishing conditions remain prime, which means trout and salmon stocking season continues full swing!! Hatchery trucks are rolling across the state this fall and the Fisheries Division plans to stock over 60,000 trout (more than half are >12") and 2,000+ Atlantic salmon across 38 lakes/ponds and 37 river/stream sections. Species include Brook, Brown, Rainbow, and Tiger trout. Fall is a fantastic time to get outdoors and track down trout and salmon. So, dust off the gear, patch the waders, fuel up the boat, and get ready for the action.

"The Daily Cast" – Better get used to it, because the Atlantic Salmon are still coming! Another round of 2-year-olds to the Naugatuck today, along with trout to one river out east and one river out west. That's it for the 2-year-old salmon. Next up are the big girls and boys (3-year-old broodstock) after spawning is completed in a few weeks. River levels are low, but much needed rain is on the way. Enjoy, be safe, and have fun fishing this week!

The following is a list of waters planned to be stocked by the Fisheries Division during fall 2026. Dates will be added daily to the "Stocked" column in the table below as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Please get out and enjoy. Anglers should also check out our **Interactive Stocking map** for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run, and this list is subject to change. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: **TMA = Trout Management Area; TML = Trout Management Lake; TTA = Trophy Trout Area; Trout Park; WTMA = Wild Trout Management Area; CFW = Community Fishing Waters**
