STOCKING UPDATE AS OF 04/16/2026:

Winter has come and gone, and spring trout stocking is firing on all cylinders! While winter treated us well and we were able to stock almost 60,000 trout through the ice, longer days and warmer weather have us excited for the spring season. The Fisheries Division plans to stock close to 600,000 trout between March and May. Brook Trout, Brown Trout, Rainbow Trout, and Tiger Trout are all scheduled. The majority of the trout will range between 10-12", and close to 25% are >12", some much larger! Please get out and enjoy. These fish are for you!

"The Daily Cast" – A lot of ground covered today. Another 10,000+ trout stocked today as we enjoy a little unseasonably warm weather. It's cooler again this weekend and next week, but the fishing stays hot! Now, we enter the 2nd half of spring trout stocking with another several hundred thousand fish to stock. Tight lines!

The following is a list of waters planned to be stocked by the Fisheries Division during spring 2026. Dates will be added daily to the "Stocked" column in the table below as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Anglers should also check out our **Interactive Stocking map** for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: **TMA = Trout Management Area; TML = Trout Management Lake; TTA = Trophy Trout Area; Trout Park; WTMA = Wild Trout Management Area; CFW = Community Fishing Waters**
